**Transfusion transmissible infections in Australia, surveillance report
Kirby institute Australia**

„This report is jointly produced by the Australian Red Cross Lifeblood and the Kirby Institute via the Surveillance, Evaluation and Research Program, which is responsible for monitoring the pattern of transmission of HIV, viral hepatitis, and specific sexually transmissible infections in Australia. This is the tenth report that summarises donation testing data, and incidence and prevalence trends for transfusion transmissible infections (TTIs) among Australian blood donors.“
